REPORT OF DIAMOND DRILLING
PROGRAM
PITT CLAIM GROUP
NEW WESTMINSTER MINING DIVISION, B.C.

SUB-MINING RECORDER
RECEIVED
JAN 25 1974
M.R.# 85749E \$
VANCOUVER, B. C.

BY: Victor Adair

This diamond drilling was done for assessment credits on the PITT claim group; being PITT #1,2,3,5,6 inclusive; situate at the extreme South East corner of Pitt Lake in the New Westminster Mining Division, B.C. Record numbers of these claims are: 28386-28388, 28390-28391 inclusive.

The work consisted of two vertical diamond drill holes, totaling 145 feet, drilled with a 5/8 inch diameter Packsack drill in outcrop in the North Western quadrant of PITT#2. The work was done by myself, with the assistance of Mr. Robert Whyte, between the 10th and 14th of June, 1973. The drill core remains on the property, as no assays were taken.

Total costs of the work, including wages, food, accommodation, drill rental, diamonds, and accessory equipment, works out to approximately \$7.50 per foot of drilling. Further, travel expenses, being four trips by boat, are \$ 120.00. Total costs to apply to assessment would therefore be:

| | | |
|-------------------|---|---------------|
| 145 feet x \$7.50 | = | \$1,087.50 |
| travel @ \$120.00 | = | <u>120.00</u> |
| | | \$1,207.50 |

These costs were paid by myself.

Declared before me at the _____ of _____, in the _____
Province of British Columbia, this _____, A.D.
