I. INTRODUCTION

Eight vertical NQ wireline diamond drill holes totalling 2,844 feet were drilled during the period May 18 to 31, 1976. Drilling costs are being submitted for assessment work on Nu 2 and 4 Groups of Mineral Claims.

II. MINERAL CLAIM GROUPS

Nu 2 and 4 Groups of Mineral Claims are located about six miles south-southwest of Endako, B. C. in the Omineca Mining Division. The property is geographically located in southeast quadrant of quadrilateral, Latitude 54° N and Longitude 125°.

The following mineral claims comprise two groups. All mineral claims are owned by Canex Placer Limited, Endako Mines Division.

Group	Mineral Claims	Record Number
Nu 2	Dat 1 Fr. & 8 Fr.	31821 & 81828
	Dat 403, 405 & 406	17291, 17293 & 17294

III. DIAMOND DRILL PROGRAM

Five vertical NQ wireline drill holes totalling 1,735 feet were drilled on the Nu 1-3 incl. Mineral Claims of the Nu 2 Group. Three additional vertical NQ wireline drill holes totalling 1,109 feet were drilled on the Nu 4 and 5 Mineral Claims of the Nu 4 Group. In addition to recovering drill core of one and seven-eighth-inch diameter, sludge samples were collected, whenever feasible, in ten-foot intervals. Drill core was geologically logged on 1" = 10' graphic log, and was sampled in corresponding ten-foot intervals for assaying. Ten-foot interval core samples consist of whole core with exception of a selected six-inch length within the ten-foot interval that is retained and stored at Endako Mines. All samples were assayed for MoS_2 content at Endako Mines Assay Laboratory.

Preparatory field work for drill program commenced on 13 April 1976. A D8 dozer was contracted from Pooley Construction Company Ltd. to prepare access roads and drill sites. Actual

diamond drilling commenced on 18 May, and was completed on 31 May 1976. Drilling was conducted by Tonto Drilling Company. The contract under which these eight holes were drilled is appended.

An appended map on 1" = 300' scale shows location of drill holes on the Nu mineral claims. Diamond drill logs with assay results are also appended.

IV. STATEMENT OF EXPENDITURES

The following expenditures were incurred by Canex Placer Limited, Endako Mines Division for the eight diamond drill holes.

				COST
A. Personnel Costs				
Personnel	Period Employed	Hrs/Rate		
E.T. Kimura	Apr.13-June3/76	66 hrs @$14.00		
			$924.00	
A.J. Peters	Apr.13-June4/76	98 hrs @$ 7.60		
			$744.80	
				$ 1,668.80
Office overhead @20% on personnel wages				333.76

B. Diamond Drilling Costs

Tonto Drilling Company Invoice No. 3068

1. Drilling charges - holes S412 to S419 incl.
   2,844 feet @ $12.75/foot $36,261.00
2. Field costs for moving and reaming
   7-1/2 hours @ $43.00/hr. $ 322.50

3. Materials cost

167 gals. Kutwell oil @ $2.01 plus 10%

$ 369.23

4. Mobilization

Pro-rated from lump sum of $2,400

$ 815.00 $37,767.73

C. Assaying Costs

517 samples for % MoS_2 @ $6.00/assay $ 3,102.00

D. Bull-dozer Costs

Pooley Construction Co. Ltd. Invoice No. 1375

8 hours D8 dozer @ $56.00 plus overtime differential

451.18

E. Vehicle Costs

17 days 3 hours each day @ $30.00/8 hr.day $ 192.00

F. Surveying Costs

One survey crew: 10 hours @ $140.00/hr plus

20 % office overhead $ 168.00

G. Miscellaneous Costs

Coreboxes, 140 NQ boxes @ $2.75 each	$385.00	
Drilling supplies and services	$210.00	
Sampling supplies	$ 50.00	$ 645.00

TOTAL DIAMOND DRILLING COSTS FOR S412 TO S419 $41,257.49

Average drilling cost = $14.50/foot

V. CONCLUSION

Eight diamond drill holes totalling 2,844 feet were drilled at an average cost of $14.50 per foot on the Nu mineral claims.

Submitted by,

E. T. KIMURA
Senior Geologist

ETK/eg

APPENDIX A :

STATEMENT OF QUALIFICATION

I, E. T. Kimura of CANEX PLACER LIMITED, Endako Mines Division, Endako, B. C., do hereby certify that:

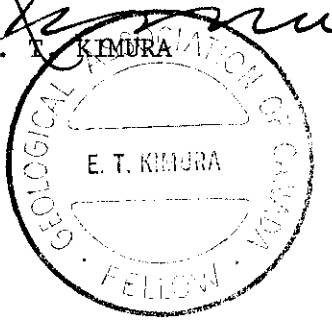
(1) I am a geologist.

(2) I am a graduate of University of British Columbia with a B. A. degree in Geology and Physics in 1955.

(3) From 1954 until the present I have been engaged in mining geology, both in underground and open pit operations, and in exploration geology in British Columbia, Saskatchewan and Yukon Territory.

(4) I personally supervised and participated in the field work and have examined and logged the diamond drill core from this drilling program.

E. T. KIMURA



Appendix B

THIS AGREEMENT made the 30th day of April, 1976.

BETWEEN: TONTO DRILLING COMPANY, of 1215 West 7th Avenue, in the City of Vancouver, in the Province of British Columbia,

(hereinafter referred to as the "Contractor")

OF THE FIRST PART

AND: CANEX PLACER LIMITED, a body corporate duly incorporated under the laws of the Province of British Columbia, and having its registered office at 700 Burrard Building, 1030 West Georgia Street, in the City of Vancouver, in the Province of British Columbia,

(hereinafter referred to as "Canex")

OF THE SECOND PART

WHEREAS:

A. Canex is the owner of the mineral claims on which the proposed diamond drill holes outlined in red on the map annexed hereto as Schedule "A" will be located;

B. The Contractor, in consideration of the payments hereinafter provided has agreed to carry out the said diamond drilling.

NOW THEREFORE THIS AGREEMENT WITNESSETH that in consideration of the premises and the mutual covenants herein contained, the Parties hereto covenant and agree as follows:

1. The Contractor agrees to find and supply all labour, materials, transportation, machinery, equipment and workmanship necessary to carry out a diamond drilling program as shown on the map annexed hereto as Schedule "A" on Canex's mineral claims and in accordance with the terms of this Agreement and the General Conditions hereto annexed as Schedule "B", at the prices herein specified.

Guaranteed Footage:

2. Canex guarantees a minimum of seven thousand (7,000) feet of diamond drilling in a series of holes, of a minimum depth of two hundred (200) feet and a maximum depth of one thousand (1,000) feet. All measurements to be taken from top of casing.

Core Size:

3. The Contractor guarantees to sink with standpipe and/or bore by diamond drill, the specified minimum footage, recovering NQ wireline core, approximately one and seven-eighths (1-7/8) inches in diameter, and to supply forthwith one (1) drill outfit, along with necessary associated equipment, industrial diamonds and labour to commence the work with the time limits specified by Canex.

Price:

Schedule of Rates for Diamond Drilling Depth of Hole Range	Price Per Foot NQ Wireline
0 to 1,000 feet	$12.75 per foot

If holes of a greater depth than one thousand (1,000) feet are desired, such drilling shall be performed only upon such conditions and at such rates as may be agreed upon before commencement of such drilling.

4. The Contractor agrees that all its labour, diamond wear and loss and all other operating expenses, except as hereinafter provided, shall be at its own cost and expense and for its own account.

Penetration of Overburden:

5. Wherever overburden or broken rock is encountered on a set-up, it is agreed that the Contractor's charge for penetrating such overburden or broken rock shall be at the following rates:

0 to 50 feet	$12.75 per foot

If the cost of penetrating the additional overburden or broken rock is greater than twelve dollars and seventy-five cents ($12.75) per foot, Canex agrees to pay the Contractor at the Hourly Rate, plus ten percent (10%) on consumables.

The Contractor agrees that the first four hours per hole for setting and pulling casing shall be at its own expense. In the event that casing cannot be set and pulled within four hours, Canex agrees to reimburse the Contractor at the Hourly Rate for the additional hours.

Hourly Rate: 6. It is agreed that Hourly Rates shall be interpreted here and hereinafter to mean the labour of a two-man crew, including supervision plus machine and equipment rental, at the rate of forty-three dollars ($43.00) per hour; pipe and casing lost or left in holes; diamond loss and setting charges; materials and supplies consumed in the work at delivered cost plus ten percent.

In the event extra labour over and above the regular two-man crew and supervision are required, the Contractor agrees to supply such additional labour at the rate of sixteen dollars and fifty cents ($16.50) per man per hour.

Caves: 7. In the event that cavities or loose and caving materials are encountered of a nature as to prevent the successful completion of any hole, the Contractor does not, under such conditions, guarantee to drill to a predetermined depth, and in the event that it becomes necessary to abandon the hole, Canex agrees to pay for such uncompleted holes at the rates herein specified for all footage completed. If required to continue on such holes on specific orders and approval from Canex's Resident Engineer or Representative, then Contractor shall have the option to revert to drilling at the Hourly Rate, plus all required materials, supplies and equipment at delivered cost plus ten percent.

In the event it becomes necessary to resort to soluble oil, cementing, reaming, casing or mud circulation in bedrock or overburden, Canex agrees to reimburse the Contractor at the Hourly Rate, plus ten percent (10%) on consumables for the soluble oil, cementing, reaming, casing or mud circulation operations.

8. Wherever pipe, casing or other equipment is lost or is left in a hole on the instructions of Canex's Engineer, Canex agrees to pay the Contractor for such pipe, casing or other equipment at their depreciated value, f.o.b. drill site. Canex agrees to pay the Contractor the cost of diamond set casing shoe bits in addition to the cost of any casing left in the hole. Canex further agrees to pay the Contractor the cost of recovery or attempted recovery of materials from holes at the Hourly Rate.

Tests: 9. The Contractor, when instructed so to do, shall take any clinometer dip tests desired by Canex. The Contractor's charge for such tests shall be at the Hourly Rate.

Water: 10. Water for drilling purposes shall be pumped by the Contractor up to a distance of two thousand five hundred (2,500) feet and up to two hundred and fifty (250) feet vertical lift. Should it be necessary to pump water to a greater distance than tw thousand, five hundred (2,500) feet or two hundred and fifty (250) feet vertical, whichever applies, Canex agrees to pay the additional cost of supplying water to the drill site at the Hourly Rate.

If required, the installation, maintenance and dismantling of two-inch mainline in the pit area will be for the Contractor's account.

Transportation and Moves: 11. a) It is agreed that the moving of drill and camp equipment, supplies and personnel, from the Contractor's warehouse to the initial drill site, and return from the final drill site to the Contractor's warehouse, shall be charged to Canex at a lump sum of two thousand, four hundred ($2,400.00) dollars.

Such costs shall include transportation, securing timber, site preparation and setting up.

b) It is agreed that the moves between drill sites up to one-half mile shall be for the Contractor's account. Canex agrees to pay, at the Hourly Rate, the additional cost for moves over one-half mile. It is also agreed that one long move of approximately one mile from the open pit to the Denak drill sites shall be for the Contractor's account. In the event that the drill equipment is requested to move back from Denak to the open pit, this return move or any subsequent moves to and from the two areas shall be paid by Canex at the Hourly Rate.

c) Moving shall be interpreted to include tearing down, dismantling machinery, moving, securing timber, transportation, and setting up. Canex agrees to operate a crane to assit with initial assembly and final disassembly of track-mounted drill rigs.

d) The Contractor agrees to supply a JD450 tractor for the purposes of moving drill and associated equipment between holes at no cost to Canex. In the event that Contractor's JD450 is unable to negotiate certain terrain, Canex will supply a tractor to assist in moving the drill rig from site to site. It is understood and agreed that waiting time for Canex's tractors on such moving operations shall be borne by the Contractor.

e) Canex agrees to provide suitable access roads and drill sites in advance of the drilling operation at no cost to the Contractor.

f) Interim service trips in connection with the maintenance of drill camps and the drilling operation shall be for the Contractor's account.

g) It is understood and agreed that if the hole drilled immediately prior to any move does not reach a depth of two hundred (200) feet, the cost of moving to the next hole shall be paid by Canex at the Hourly Rate.

Waiting Time for Orders: 12. It is understood and agreed that time lost waiting for orders from Canex's Resident Engineer or Representative, shall be charged to Canex at the Hourly Rate.

Travel Time: 13. The Contractor will provide transportation for its personnel to and from the drill sites. In the event travel time to and from the drill sites exceeds one hour per man shift, Canex agrees to reimburse the Contractor for all travel time in excess of one hour per man shift at the rate of sixteen dollars and fifty cents ($16.50) per man hour.

Core: 14. The drilling shall be conducted so as to produce maximum core recovery with every reasonable precaution taken to prevent crushing, wearing or grinding of core. All cores recovered by the Contractor shall be carefully marked and placed in receptacles to be furnished by Canex, at the drill site. To ensure maximum core recovery, the Contractor will supply experienced wireline operators. Canex will be responsible for the transportation of core from the drill site.

Sludge: 15. The Contractor, whenever instructed, agrees to take sludge samples every ten feet (10') of hole depth. All sludge samples shall be placed by the Contractor's operators in containers provided by Canex and carefully marked. Canex will be responsible for the transportation of sludge samples from the drill site.

Security: 16. The Contractor will not give out any information regarding drill results or permit access to any drill core to any person other than Canex's accredited Representatives, except upon specific permission of responsible officials of Canex.

Moly Grease: 17. The Contractor will not use molybdenum-base grease on rods or on any parts of the drill where contamination of sludge and core may occur.

Camps: 18. The Contractor agrees to provide board and lodging for its own men at no cost to Canex.

Discipline: 19. The Contractor shall, at all times, enforce strict discipline and maintain good order among its employees, and shall not retain on the work any unfit person or anyone not skilled in the work assigned to him.

Any employees of the Contractor who are objectionable or unsatisfactory to Canex, shall be removed from the work and replaced by an employee satisfactory to Canex.

Insurance: 20. The Contractor shall insure and keep insured during the term of this contract with an insurer acceptable to and approved by Canex, at the Contractor's own expense and cost, the following liability insurances:

i) Comprehensive general liability insurance on an occurrence basis, and including but not limited to, operations, Contractor's protective, contractual, products and completed operations and non-owned automobile. Canex shall be added as an additional insured under this item and the following clause shall be made part of this agreement:
"Cross Liability - the insurance afforded by this policy shall apply to any action brought against any of the insureds by any other insured in the same manner as though separate policies were issued to each."

ii) Automobile - owned.
The insurers limit of liability in respect to the above mentioned insurances shall not be less than one million dollars ($1,000,000.00) inclusive for bodily injury and/or property damage each occurrence, and one million dollars ($1,000,000.00) aggregate for products and completed operations.

21. The Contractor shall be responsible for and will pay promptly all dues and assessments payable under any Workmen's Compensation Act or other similar Act, whether Provincial or Federal, in respect of its employees.

Environment:

22. During the course of the work, the Contractor shall at all times keep Canex's premises free from accumulation of waste material or rubbish and upon completion of the work, shall remove all tools, scaffoldings, surplus materials and rubbish, and leave the premises in a clean condition. The Contractor shall observe and comply with all applicable Federal and Provincial laws, regulations and orders relating to prevention of forest fires and sanitation in the bush.

Canex will be responsible for procuring and maintaining applicable permits for land and water usage. Canex will hold Contractor harmless for any liability claims which may arise from normal activity related to this Agreement, including pollution of ground water or surrounding land from discharge of drill water and wastes save if Contractor's employees act in an irresponsible manner.

Payment for Work:

23. Canex agrees to pay the Contractor, in Canadian funds, the above prices. Payment shall be made within thirty (30) days of the date of the account rendered. Invoices shall be submitted twice monthly to Canex Placer Limited, Endako Mines Division, Endako, B.C. V0J 1L0. Interest at the rate of one percent (1%) per month shall be charged on overdue accounts. Not withstanding the foregoing, payment is subject to the provision of Article 20 of Schedule "B".

Manner of Performing Work:

24. The Contractor shall perform his work in such a manner as to not interfere with or hold up the normal operations of Canex.

Safety:

25. The Contractor will abide by all provisions of The Mines Regulation Act that pertain to safety and such other matters relevant to this Agreement.

Equipment operated by the Contractor shall, at all times, yield the right of way to equipment operated by Canex.

The Contractor's equipment shall meet all Workmen's Compensation Board and Department of Mines regulations.

Engineer:

26. Canex's Engineer or Representative referred to herein and in the General Conditions of the contract shall be the Mine Manager of Canex Placer Limited, Endako Mines Division or such other person as he may nominate in writing as his representative.

Notices:

27. All communications in writing between the Parties shall be deemed to have been received by the addressee if delivered to the individual or to a member of the firm or to an officer of the corporation for whom they are intended, or sent by post or telegram addressed as follows:

The Contractor: Tonto Drilling Company,
1215 West 7th Avenue,

General:

28. Whenever in this Agreement it is stipulated that anything shall be done or be performed by either of the Parties hereto, it shall be assumed that such Party does hereby enter into a covenant with the other Party to do or perform the same.

29. All grants, covenants, privileges and liabilities contained in this Agreement shall be read and held as made by and with and granted to and imposed upon the respective Parties hereto and their respective successors and assigns, in the same manner as if the words "Successors" and "Assigns" had been inscribed in all proper and necessary places, and in the event of more than one person being the Contractor, the said grants, covenants, provisos and liabilities, shall be construed and held to be several as well as joint.

30. Whenever the singular or masculine is used throughout this Agreement, the same shall be construed as meaning the plural or feminine or body corporate, as the context of the Parties so require.

31. Any condoning, excusing or overlooking by Canex of any breach, or non-performance by the Contractor at any time or times in respect to any covenant, term, condition, and proviso contained in this Agreement shall not operate as a waiver of Canex's right in respect of any continuing or subsequent default, breach or non-performance.

APPENDIX D :

Diamond drill logs S412 - S419 inclusive

32. This Agreement may be altered only by written consent of both Parties hereto.

33. Time is of the essence in this Agreement.

IN WITNESS WHEREOF the Parties hereto have caused these presents to be executed as of the day and year first above written.
