

6381

Sept. 27th, 1977

E.J.Bowles  
Chief Gold Commissioner  
Dept. of Mines & Petroleum Resources  
Parliament Buildings.

8912

Dear Sir;

I apologise for not having answered your letter of Aug. 8th sooner. It was misplaced.

Itemized account of Percussion Drill report #212

A. Two days transportation--Three drivers-Low-bed truck  
4x4 truck & equipment trailer  
4x4 truck & trailer for living.

B. & C. We had a contract with Jack Scott of Kamloops B.C. to drill 900 feet for \$4000.00 on the T.J.W. T.J.W.-B. and T.J.W. -C. Claims known as the Anthony Group. A Certified cheque was advanced to Jack Scott to cover the transportation of the Drill (erected on a D.C.8 Cat.) from Lac LaJeune to the above claims two miles west of Murphy Lake. On completion of the 900 feet of drilling another certified cheque was given to Jack Scott for the completion of the contract; namely \$2500.00. I have no knowledge of the wages paid the two men who operated the drill. The Merritt Funk Brothers drilling report gives the number of hours, namely; 51 hours.

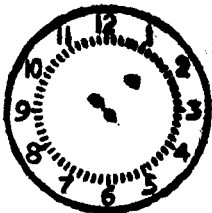

As my partner Ted. Kuhn and I were present all the time, we know that the 900 ft. were drilled. We are in possession of the residue of the samples that were assayed-- one for every ten feet.

I trust that this statement will meet with your approval.

Sincerely yours

*Joseph H. Franks*  
J.H. Franks
