ASPEN GROVE AREA, NICOLA M.D., B.C.

Scale : 1:50,000

April 1979

J. P. [Signature]

LEGEND
 area covered by survey

Location and Access

The AU 1 claim is situated 1.5 km. north east of Pothole Lake, Aspen Grove.

A summer dirt road traverses the AU 1 claim.⁽¹⁾ The property is readily accessible by two wheel drive vehicles.

Previous Work

Previous work is noted under references. A prospecting programme was conducted by J. McGoran in 1978.

J.P. Elwell in a report to Invex Resources Ltd. recommends further soil sampling and analysis for gold, silver and copper. This geochemical survey was conducted as a portion of his recommendation.

Survey Method

Field work was conducted by Scope Exploration Services of Merritt. Grid was established and soil samples were collected from the B horizon. These samples were sent to Acme Analytical Laboratories for analysis.

(see appendix A)

Compilation

Histograms were plotted of each metal result and anomalous values were thus determined.

Maps were drafted and contoured to show anomalous values.

Results

Anomalous values for gold, silver and copper are 20 ppb⁺, 0.3 ppm⁺ and 100 ppm⁺ respectively. The maps were contoured using these values.

There is a good correlation between copper and gold and between silver and copper. The correlation between silver and gold is of a lower order.

There is a trend of anomalous gold copper and silver north-westerly from the area of gold and copper mineralization in bedrock. This trend is parallel to regional stratigraphy.

Recommendations

The soil sampling should be continued to the north west. Detailed prospecting should be conducted in anomalous areas.

John McGoran
B. Sc. Geology

Histogram (Au.)

Histogram (Ag.)

Histogram (Cu.)

I have prospected for a living in Canada
for over ten years.

I am a graduate from Carleton University
with a B. Sc. Geology.

Itemized Costs

Prior to April 15, 1979

Cutting 14 km. of grid and collecting 541 soil samples (contract)	1,400.00
Geochemical preparation and analysis for 538 samples for Au, Ag, Cu.	2,057.85

Since April 15, 1979

Cutting 8 km. of grid and collecting 320 soil samples (contract)	800.00
Geochemical preparation and analysis for 320 samples for Au, Ag, Cu.	1,227.82
Transportation of soil samples	29.50
Report preparation, drafting, typing	150.00
TOTAL Expenditures	<u>\$ 5,665.17</u>

J. M. Gorn
