1.0 Summary and Conclusions

Demus Petro Corp. controls the Fir claim (20 units) near the north end of Stump Lake in the Nicola Mining Division of British Columbia. During early April 1980, a geochemical soil survey was undertaken on the property to explore for anomalous conditions for copper, silver and lead, this work being completed prior to the expiry date on the claim.

Only weakly anomalous conditions were obtained for copper and silver with the anomalies being generally of the one or two station variety.

2.0 Introduction

During the period April 7 - 17, 1980 a geochemical soil survey was undertaken on the Fir claim (20 units) for Demus Petro Corp. by Mr. A Raven, under the direction of the author.

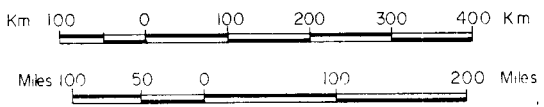

The claim lies on the west side of Stump Lake near its north end immediately west of Highway 5. It is controlled by Demus Petro Corp. of Vancouver.

The geochemical soil survey was undertaken as Phase I surveys as recommended in a report by Mr. A. F. Roberts, P. Eng. dated February 23, 1980.

This report is a summary of the results of the survey.

Location Map

Plan No. 1

DEMUS PETRO CORP.		
LOCATION MAP FIR CLAIM NICOLA M.D., B.C.		
JOHN R. POLONI & ASSOCIATES LTD.		
DRAWN : J.R.P.	CHECKED : J.R.P.	PLAN No.
SCALE : As Shown	DATE : JUNE 1, 1980	1

### 3.0 Location and Access

The property lies immediately west of Stump Lake near its north end, at coordinates 50° 24' North Latitude and 120° 21' West Longitude Plan No. 2.

Access is via Highway No. 5 from either, Kamloops to the north, or Merritt to the south, and then along secondary roads past Kullogh Lake. The legal corner post can be seen from Highway No. 5 at about 100 meters up slope near the north end of Stump Lake.

### 4.0 Claim Information

The property consists of one 20 unit claim less the Red Bird Claim, a two post claim held by William Huxley of Merritt, B.C., as reported by Roberts A.F. February 23, 1980. Claim data is as follows:

<u>Name</u>	<u>Units</u>	<u>Record No.</u>	<u>Expiry Date</u>
Fir	20	455	April 18,

### 5.0 Geology

Department of Mines and Petroleum Resources Map 886A, Nicola shows the area to be covered by Upper Triassic, Nicola Group, greenstone, andesite, basalt, agglomerate, breccia tuff, minor argillite, limestone, and conglomerate. Roberts A.F., reports green dense andesite, boulder conglomerate, and dense fine grained

basalt. Calcite and quartz fracture filling, magnetite, and a small amount of copper staining are also reported.

The claim group is seen to be located on the south west flank of a magnetic high with a reading of 2980 gammas.

#### 6.0 Geochemical Survey

A total of 876 soil samples were taken by Mr. A. Raven from B-horizon material on a grid pattern, established with line interval being 100 meters and sample interval being 50 meters. Sample material was collected in brown kraft sample bags and sent to General Testing Laboratories, in Vancouver, for analysis for copper, silver and lead. Analysis was in ppm.

The results of the analysis are appended in Appendix D. Calculations made on the assay information show that only minor weakly anomalous conditions exist.

Table No. 1

<u>Element</u>	<u>Mean</u>	<u>1S</u>	<u>2S</u>
Copper	55.7	111	167
Silver	0.72	1.44	2.16
Lead	13.4	26.8	40.2

These anomalies are generally only 2 times background for copper and silver and are of the single station or two station variety. Plan No. 4 shows sample location and property grid.

APPENDIX A

Certificate

CERTIFICATE

I, John R. Poloni, of 5502 - 8B Avenue, in Delta, in the  
Province of British Columbia,

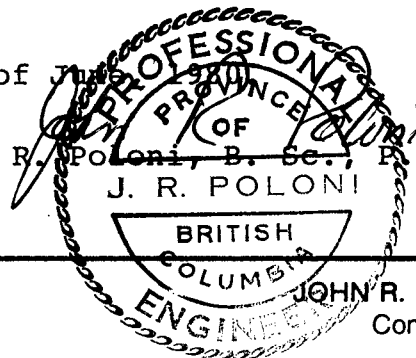

DO HEREBY CERTIFY THAT:

1. I am a Consulting Geologist.
2. I am a graduate of McGill University of Montreal,  
Quebec, where I obtained a B. Sc., degree in  
Geology in 1964.
3. I am a registered Professional Engineer in the  
Geological Section of the Association of  
Professional Engineers of the Province of British  
Columbia.
4. I have practiced my profession since 1964.
5. I am a Fellow of the Geological Association of  
Canada and a member of the Canadian Institute of  
Mining and Metallurgy.
6. I have not personally visited the claim but have  
worked near Trapp Lake immediately north of the  
property.
7. I have no interest in the properties or securities  
of Demus Petro Corp. nor do I expect to receive or  
acquire any.

Dated this 1st day of June 1980

John R. Poloni, B. Sc., P. Eng.

J. R. POLONI

JOHN R. POLONI P. Eng.  
Consulting Geologist

Cost Statement

**D. GEOLOGICAL, GEOPHYSICAL, GEOCHEMICAL**

(Details in report submitted as per section 5, 6, or 7 of regulations.)

(The itemized cost statement must be part of the report.)

(State type of work in space below.)

Soil sampling and Geochemical <sup>Report &c</sup> survey being done -  
Report to follow in one month

TOTAL OF C AND D

4,484.50

Low claim for 876 samples.
