

THE "SAM" MAGNESITE

LOCATION:

Approximately 18 miles due west of Brisco, B.C.
Golden Mining Division
Map No. 82k/~~11E~~ 15E
Latitude 50 degrees 55'; Longitude - unknown
The Claims may be reached by logging road from
3 separate locations - Brisco, Spillimacheen or
Parson, B.C.

OWNER OF CLAIMS:

Allan R. Miller, Box 938, Invermere, B.C.
Harold E. Bearham, Invermere, B.C.

DESCRIPTION OF WORK:

During the summer of 1979, a serious attempt was made to evaluate property with the assistance of Kaiser Resources Ltd., Vancouver, B.C. Unfortunately, Kaiser has not provided us with a 'formal' report, but we are able to supply the following.

MAPPING:

Mapping of the large, prominent ridge containing the magnesite deposit (located in the Mount Nelson formation) was undertaken and extensive sampling and assay work was completed (see attached).

DRILLING:

In addition, four holes were diamond drilled to an approximate depth of 10' at a specific location on the top of the ridge. A copy of the assay analysis is enclosed.

SUMMARY:

The owners are endeavoring to generate further interest with a view to further exploration and analysis. Kaiser has decided not to proceed.
