of 4

* 5ft. intervals to 76.2m

- LEGEND**
- 1 Quartz Monzonite: light pinkish-grey, coarse-medium and coarse grained, with large (to 3 cm) K-spar phenocrysts.
 - 2 Quartz Monzonite: grey and pinkish-grey, dominantly medium-grained boarding on fine, K-spar and quartz porphyritic; biotite bi-modal, fine-to medium-grained and very fine-grained 'pepper'-like.
 - 3 Quartz Monzonite: light pinkish-grey, variably textured but dominantly medium-grained and K-spar porphyritic. Locally resembles unit 2 or, elsewhere, quartz-feldspar porphyry.
 - 4 Quartz Monzonite and Quartz-feldspar Porphyry: Mostly light pinkish grey variably textured quartz monzonite (like unit 3); contains zones of quartz-feldspar porphyry (like unit 5) generally less than 10 m thick.
 - 5 Quartz-feldspar Porphyry, Quartz Monzonite and Granite: pink quartz-feldspar porphyry with fine-grained groundmass and variably developed quartz, K-spar and plagioclase phenocrysts grades downwards into mixed light pinkish-grey medium-grained variably porphyritic quartz monzonite (like unit 3), pink medium-and fine-grained variably porphyritic granite and pink fine-grained quartz-feldspar porphyry.
- Sample interval 10 ft. unless otherwise indicated by footage in brackets.
- All figures in metres except sample intervals.

LEGEND

- 1 Quartz Monzonite: light pinkish-grey, coarse-medium and coarse grained, with large (to 3 cm) K-spar phenocrysts.
- 2 Quartz Monzonite: grey and pinkish-grey, dominantly medium-grained bordering on fine, K-spar and quartz porphyritic; biotite bi-modal, fine to medium-grained and very fine-grained 'pepper' - like.
- 3 Quartz Monzonite: light pinkish-grey, variably textured but dominantly medium-grained and K-spar porphyritic. Locally resembles unit 2 or, elsewhere, quartz-feldspar porphyry.
- 4 Quartz Monzonite and Quartz - feldspar Porphyry: Mostly light pinkish grey variably textured quartz monzonite (like unit 3); contains zones of quartz-feldspar porphyry (like unit 5) generally less than 10 m thick.
- 5 Quartz-Feldspar Porphyry, Quartz Monzonite and Granite: pink quartz-feldspar porphyry with fine-grained ground-mass and variably developed quartz, K-spar and plagioclase phenocrysts grades downwards into mixed light pinkish-grey medium-grained variably porphyritic quartz monzonite (like unit 3), pink medium-and fine-grained variably porphyritic granite and pink fine-grained quartz-feldspar porphyry.

Sample interval 10 ft. unless otherwise indicated by footage in brackets.

All figures in metres except sample intervals.
