# Tsitika Stone Industries

A DIVISION OF MAMMOTH GEOLOGICAL LTD.

**Tsitika Stone Industries** is a Vancouver Island based quarry providing natural stone products to the construction industry. **TSI** is well equipped to produce and deliver both rough block and split stone direct from our wholly owned quarries.

We are introducing our newest product - **Tsitika Grey**; an esthetically pleasing, medium- to coarse-grained, typical salt and pepper, white grey diorite. The distinct grain and easy workability of this granite makes it ideally suited for a variety of construction applications, including: building facings and facades, feature walls, chimneys and fireplaces and landscaping.

The following is a sampling of recent projects utilizing our **Tsitika Grey** granite:

|                     |                 |                          |
|---------------------|-----------------|--------------------------|
| * Private Residence | West Vancouver  | Columns, stairways       |
| * Private Residence | Victoria        | Facings, columns, arches |
| * Private Residence | Duncan          | Facings, chimney         |
| * Private Residence | Port Hardy      | Fireplace                |
| * Townhouse Complex | Richmond        | Feature walls            |
| * Cemetery          | North Vancouver | Feature walls            |
| Private Residence   | Ladysmith       | Fireplace                |
| U.B.C. Library      | Vancouver       | Feature walls            |
| Peoples Drug Store  | Port Hardy      | Facings                  |
| Private Residence   | Port Hardy      | Fireplace                |
| Private Residence   | Sidney          | Facings, chimneys        |
