**On the Otteson Property (Tenure # 515101),**

Creighton Valley Road,  
Vernon Mining Division,  
NTS 082L/2E  
50°-12'-5" N x 118°-38'-36" W

by  
Ronald Otteson (owner)

March 10, 2007

**GEOLOGICAL SURVEY BRANCH  
ASSESSMENT REPORT**

**28,413**

## **Table of Contents**

1) Introduction .....	1
2) Observations .....	1
3) Data .....	1
4) Statement of Costs .....	6
5) Conclusions .....	6
5) Statement of Qualifications .....	6

## **List of Figures**

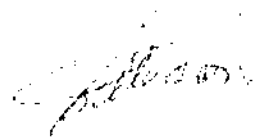

Fig. 1: Location Map .....	2
Fig. 2: Claims Map .....	3
Fig. 3: Sample Locations .....	4
Fig. 4: Photos of Sample Sites .....	5

**1) Introduction**

The claim is located approximately 65 kilometers east of Vernon, BC, off Creighton Valley Road, in the Vernon Mining District, NTS 082L/2E, at 50°-12'-05"N latitude by 118°-38'-36" W longitude. Previous logging activity in the area exposed mineralized veins, and so there was stripping, prospecting and sampling carried out, and then follow-up sampling was done. A summary of the resulting assays are presented in Section 3). No previous activity had occurred on the area. The location map and claims map follow, in Fig.1 and Fig.2.

**2) Observations**

Heavy equipment associated with logging activity over this area exposed a gossanous area, and when explored, a series of small quartz veins with mineralization was revealed. A total of 50 hectares was prospected. Samples obtained from the mineralized area were assayed, and found to contain significant concentrations of gold, silver, copper, lead, and zinc. Follow-up sampling at a later date verified these early results, but showed other areas to be less well-mineralized. The location of sample sites is presented on the Sample Map, Fig.3. Photos of the sample sites are presented in Fig.4

**3) Data**

Locations of sample sites are listed below, and are shown in accompanying map, Figure 3.:

Sample Site Locations - UTM NAD

	No 6 -soil	6.96 oz/t	63.44 oz/t	1.77	0.43	2.75		<20	<10

4) **Statement of Costs**

Assaying (see attached receipts from TSL Laboratories, Saskatoon, SK)	\$1,178.00
Labour @ \$20.00 per hour x 8 hours x two men x 10 days	\$3,200.00
Pickup truck @ \$50.00 per day x 10 days	\$500.00
Sample bags, supplies	<u>\$100.00</u>
<b>Total:</b>	<b>\$4,978.00</b>

5) **Conclusions**

Significant gold, silver, and copper values were found in narrow, sheeted veins in test pits on the property. These veins warrant further investigation as to their continuity and distribution over other parts of the claim. A comprehensive soil sampling program, potentially defining drill targets is desirable for future work, since the two soil samples that were taken did reflect the nature of underlying mineralization.

6) **Statement of Qualifications**

I, Ronald Otteson, residing at 68 Aumond Road, Cherryville, BC, have been carrying out activities as a prospector in this area for the last 28 years.
